

Cedars-Sinai Medical Center/Zynx Health Fellowship Program in Health Services Research

- **One-year fellowship**
- **Focus on Evidence-based Medicine, Clinical Decision Support, Quality-of-Care Improvement, and Health Information Technology**
- **On-the-job training with real-world projects, designed to instruct participants in research methods, enable them to perform supervised research, and give them management and administrative skills**
- **Fellowship appointment through Cedars-Sinai Medical Center (CSMC), the academic sponsor, PGY-4 stipend, leave and insurance benefits in accordance with CSMC policies**
- **Personal office space, bibliographic searching capability, access to computer and photocopying**
- **Parking is provided free of charge**
- **There are no required clinical duties as part of fellowship training. Professional liability insurance is provided for clinical activities only at Cedars-Sinai Medical Center. Coverage is not provided for moonlighting activities outside of Cedars-Sinai Medical Center.**
- **Fellows require permission of the program director if they wish to work elsewhere while participating in the fellowship. The program director will monitor fellow performance to ensure that employment elsewhere does not adversely affect learning, interfere with the goals and objectives of the program, or violate CSMC policies.**
