

RECOOP HST CONSORTIUM

SAM III (Prague) Deliverables

SAM IV Bratislava

Sandor G. Vari

Form Partnership with CSMC

Total Number of Participants: 12 institutions

Czech Republic

Faculty of Military Health Sciences, University of
Defense, Hradec Kralove
American Science Information Center, Prague

Croatia

School of Medicine University J. J. Strossmayer
Osijek

Hungary

University of Debrecen

University of Pecs

University Szeged

Romania

Carol Davila University of Medicine and
Pharmacy, Bucharest

Slovakia

Slovak Medical University, Bratislava

Ukraine

Institute of Cell Biology, National Academy of
Sciences of Ukraine, Lviv
Institute of Molecular Biology and Genetics,
National Academy of Science of Ukraine, Kyiv

Palladin Institute of Biochemistry, National
Academy of Sciences of Ukraine, Kyiv
Danylo Halytsky Lviv National Medical
University, Lviv

RECOOP HST Operating Principles

Requirements for the partners to be members of Strategic Alliance are:

- Integrity
- Effective allocation and use of resources
- Honest and ethical dealings and practices
- Commitment to excellence and quality outcomes
- Continuous improvement

The organizational values in the Strategic Alliance are:

- Innovative thinking and acting
- Diversity
- Collaborative operation
- Teamwork and placing the team's or organization's objectives above one's own

The Partners shall provide:

- Strong and useful background information (e.g., expertise, knowledge, useful results, underlying patents, etc.).
- Excellent quality of research is proven by a good track record (e.g., impact factors and citation indices).
- Entrepreneurial skills and management experience to train the trainers.

SAM III Deliverables

- Determine what is really possible within a specified time frame (formation of work groups)
- Begin building a useable road map (planning)
- Determine resources that will really be required (surveys)
- Get to know each other to enable a stronger partnership (Summer School)
- Set everyone's expectations (RIM Implementation plan)

A Readiness Assessment

- Readiness Assessment
 - Evaluates an organizations ability to carry out a defined task(s) or produce a particular set of results
- Areas for readiness include:
 - Adequate staffing (Staff coverage / training)
 - Policies & procedures
 - Facilities & equipment
 - General experience

Survey Results

Who Responded To The Survey Tool

- Topics Covered:

- SWOT 11 of 12 responses (AMVIS N/A)
- IP Survey 11 of 12 responses (AMVIS N/A)
- Research Tools (AMVIS N/A) 10 of 12 responses
- Clinical Trials (AMVIS N/A) 9 of 12 responses

Assessment Review Process

An Interactive Discussion during Summer School

- **Start At The Highest Level**
 - **Defining Success (SWOT)**
 - What is it?
 - How it is measured?
 - **What Have We Done To-Date (IP, Research Tool, Clinical Trial Survey)**
 - What Technologies, etc.
 - **What Is Needed to Pursue (Work Plans)**
 - Innovation Management
 - IP Warehouse/Tools, etc.
 - Clinical Trials
 - Research Networks
